Making Good.

There is no way of making losing friends like "Making Good" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while so many of less meritorious articles have suddenly faded into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It is an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve-tonic it is unequalled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of its kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much imitated but never equalled.

THE TEMPERANCE QUESTION.

"Those interested are taking the ground that the manufacture and distribution of alcoholic beverages is wrong per se. If this be true, then there is no question that the Almighty was wrong in commanding the use of wine in speaking to his chosen people, and Christ was wrong in making wine at the feast of Galilee and He was wrong in selecting wine and bread to commemorate his death."

The foregoing is a part of a letter sent yesterday from Louisville, Ky., to preachers throughout the country by the National Model License League, through its president, T. M. Gilmore. The letter explains that the object of the league is to have a uniform restrictive saloon license adopted by the states where prohibition is not in force. The letter continues:

"Now, if those interested in the effort to establish prohibition prove to the satisfaction of the American people that Christ did that which was wrong, that Christ committed a sin, and that Christ set a bad example to future generations, then we fear that they will have succeeded (insofar as the American people are concerned) in destroyed the very foundation of the Christian faith."

"The prohibitory laws that are being passed in this country merely prohibit the manufacture and sale, and do not prohibit the purchase and use of alcoholic liquors, and all thinking men know that where a demand exists it will be supplied from some source if the profit justifies the risk in supplying it. Witness the development of the mail order business and moonshine business, and, as shown by the figures of the Internal Revenue Department, the per capita consumption of whisky has not decreased with the spread of prohibition, while the per capita consumption of beer has largely increased."

"If the Antislavery League will agree to it, we will favor having an amendment to all prohibitory laws providing a heavy penalty for the purchase of alcoholic beverages or for having them in possession in prohibition territory, and this would mean prohibition."

"The passage of laws will not prevent the use of alcoholic beverages; that is a matter of education and of evolution."

Kodol is a scientific preparation of vegetable acids with natural digestants and contains the same juices found in a healthy stomach. Each dose will digest more than 3,000 grains of good food. Sold by W. F. Creighton & Co.

BIRTH ON A TRAIN.

The stork made an unseasonable visit in the vicinity of Butler, Pa., Thursday night. While a passenger train on the Baltimore and Ohio Railroad was plowing through the snow it suddenly stuck fast, and for 15 hours was unable to move a wheel. Early Friday morning the stork, which had been hovering over the car, brought a baby girl to Mrs. Mary Debeur, of Frost, Pa., who was one of the snow-bound passengers. There was an awful commotion. Only one other woman was on the train, and she declared that Mrs. Debeur must be taken to a physician immediately. The men acted promptly. They tore out a couple of seats from a car and built a sled. Then the woman and baby were placed on cushions, the bell-cord was pulled off and made into harness, and half a dozen men dragged the sled to the nearest farmhouse, three miles away. A doctor who lived near was summoned, and Mrs. Debeur and the baby made as comfortable as possible.

The best remedy known today for all stomach troubles is Kodol, which is guaranteed to give prompt relief. It is a natural digestant; it digests what you eat, it is pleasant to take. Sold by W. F. Creighton & Co.

"QUART PARTIES" IN VOGUE.

The rigid enforcement of the Georgia prohibition law has resulted in the invention of the "quart party," which is in the nature of a Dutch treat, with a few variations. Each guest is expected to bring with him a quart of something intoxicating and when all have arrived the offerings are placed on the tables and are common property. The topic of conversation is generally the "iniquity of the prohibition law," and frank discussion as to the quickest method of refilling empty bottles.

The fear of druggists that the law may put them out of business, along with the saloons was added to last Friday. Legal officials of Atlanta recently ruled that listerine rosewater and other toilet articles containing sufficient alcohol to intoxicate could not be sold by druggists under the prohibition law without the purchaser first securing a prescription from a physician for the article. Four local druggists were held into court on this charge and an exposition of the prohibition law made with the final result that Recorder Broyles instructed that the case be dismissed, with a warning to the druggists to refrain from selling such articles in future without prescriptions.
